

Tool Talk Safety Meeting

May 4, 2021

- Longline Paint - Crew Safety Review

Crew Specific Safety Review

Each crew member is to have a copy of the PK Safety & Health Handbook for today's Longline Paint Tool Talk discussion. This Tool Talk is a review of the general safety standards and a focus on specific provisions for Longline Paint Crews. The review is also to familiarize crew members about the project, roles and responsibilities; identify tasks, evaluate risks, and address any questions. The PK Safety & Health Handbook is found on the PK Employee Homepage and printed copies are available at each division.

District LL Paint Crew Specific Item:

- **3.08 Coning Procedures**

Review Coning Procedures: working in a cone pocket and cone picking.

General Items and Hazard Communication

- **4.2 Material Safety Data Sheets (SDS)**

All employees are required to have the link to the PK SDS stored on their personal device for SDS access in an emergency. Save the following link as a favorite or your home screen for quick access:

- **The Safety Checklist** on pages 20— 21 and **Daily Vehicle Inspection Checklist** on page 22 is available for use with daily pre and post trip inspections.
- **Police Assistance For Freeway Striping Crews:**
Contact the local MSP post as needed to request additional patrols. An MSP Post Directory is attached.
- **Foreman Work Reports**
Foreman's reports need to be completely filled out with more than just quantities and time. Fuel usage must be reported for every vehicle everyday along with any hotel or other expenses. Information provided on the daily reports is also used to track and find the cause of incidents and eliminate a recurrence.
